This week in Kindergarten...²

The end of the year Davening Siyum took place this week! The kindergarten celebrated learning the entire birchas hashachar, baruch sheamar, and the full shema!

We are so proud of them and all of their accomplishments! They enjoyed popcorn, bagels, salad, and ice cream!

In our Niflaos Haborei unit we have been learning about sea ice and icebergs. We are having fun cracking secret codes using numbers and symbols to read the messages. Next week we are going to try creating our own secret code.

Until now we have been adding and subtracting using ten frame counters and poppers. Next week we are going to learn how to use a number line. This will also help us learn to count by 2s ,4s...

PLAYGROUP BLOG

THIS WEEK WE LEARNT ALL ABOUT FEELINGS!

ON MONDAY, WE LEARNT ALL ABOUT BEING HAPPY! AFTER WE PAINTED OUR OWN HAPPY FACE!

פרשת בהר-בחקתי

Farmers in Eretz Yisroel work their land for six years, but during shmita, the seventh year, a farmer does not work his field.

A person might think, how will I support my family during this time? Therefore the pesukim tell us how Hashem supports and will provide for people who keep shmita and even for their animals.

Those who keep shmita will receive bracha not only during shmita, but also for the whole next cycle, the next six years.

Shmita is therefore called Shabbos. Just like Shabbos brings bracha to the six days that follow, shmita brings bracha to the six years that follow.

We may not be farmers, and may not be able to fully participate in shmita. However, each week we have the opportunity to keep and honor Shabbos in beautiful ways, spilling over bracha into each and every week!

Have a great Shabbos!
