What an incredible second week this has been at Cheder Miami! The children have been learning about the special sounds of the shofar. The children had the chance to see and hear it being blown, and we even practiced making the sounds together!

Everyone loved trying out tekiah, shevarim, teruah, and shevarim-teruah! We spoke about how the shofar helps us get ready for Rosh Hashana when we return back to Hashem our king.

# This week in Nursery...

This week our Kodesh class was filled with excitement as we prepared for Rosh Hashana. The kinderlach had the special opportunity to hear the shofar blown by Rabbi Burstyn. They sat so quietly and listened so carefully, just as we will do in shul on Rosh Hashana. We also enjoyed tasting apples dipped in honey and learned that this sweet *minhag* should be a *siman* for a sweet new year. The children have been busy working on their Rosh Hashana projects, putting in so much effort and creativity. They are so proud of their work and are excited to share it with you. Through these activities, we spoke about the meaning of the new year—starting fresh, showing kindness, and bringing sweetness into everything we do. We are proud of how beautifully the kinderlach are settling into the class, learning the routine, making new friends, and building a warm connection with their Moros. We look forward to a year of growth, nachas, and many sweet moments together!

Afternoon Nursery has been learning our colors, playing a hide and seek color game. We continue to discuss our theme “All about me”. Our favorite book is “Dogs Colorful Day”. Music time with guitar is another favorite and so is our puppet shows.
