In Playgroup, the children dove “under the sea” and learned all about sea animals. They discovered fish that swim, dolphins that jump, and octopuses with so many arms! The kids loved pretending to be little sea creatures, singing ocean songs, and making beautiful arts and crafts. In Nursery, the children explored all the different shapes and colors around them. They built towers with colorful blocks, made shape collages, and learned how every shape and color makes the world more beautiful. It was a week full of smiles, learning, and creativity at the Cheder Miami! Special thank you to the Miller Family for sponsoring new toys! Special thank you to the Luzenick Family for sponsoring a new speaker system! Mazal Tov to Reb Eli and Morah Ariella Green on the upsharin of their son, Cheder Miami Talmud Mendel!

This week in Nursery...

This week in Morning Nursery, we learned all about Avrohom and Sarah's tent. We discovered that their tent had four doors so guests could come in from every direction. Avrohom and Sarah welcomed everyone with big smiles, delicious food, and warm hospitality. We also learned that they had a special baby named Yitzchak! The children had so much fun building their own tent, pretending to welcome guests, and preparing food inside. To celebrate the mitzvah of Hachnasas Orchim, we created two beautiful projects, a

door sign and our very own אוהל אברהם.

In Afternoon Nursery, we continued our exciting exploration of shapes! We went on a shape scavenger hunt and found circles all around us round lights, pipes, balls, and even round rocks! We all stood together on a big round circle we discovered on the path in front of shul. We also spotted many squares and practiced sorting and identifying shapes in our classroom. It's been so much fun noticing how many shapes are part of our everyday world
