What an exciting week at Cheder Miami! Even though this week was a short week, we truly took advantage of every day as we learned about Parshas Vayechi and the beautiful brachos Yaakov Avinu gave to his family.

The children also began an exciting new unit on the animal kingdom, where they sorted and categorized animals by size type, habitat, and what they eat.

We ended the week with a special celebration for Nechama's birthday, which the children enjoyed very much.

This week in Nursery...

Dear Parents,

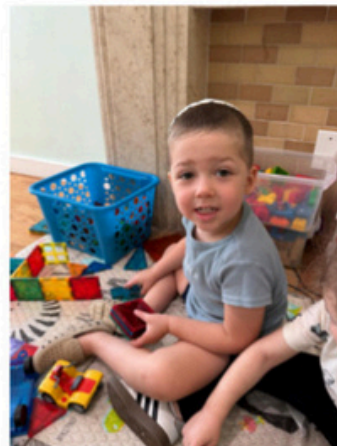

Even though this week was a short week, we truly took advantage of every day! We spent time learning about Parshas Vayechi, focusing on the beautiful brachos that Yaakov Avinu gave to his children and grandchildren. The children especially enjoyed learning about the bracha given to Ephraim and Menashe, and how Yaakov switched his hands while giving the brachos. We also learned the words of Hamalach Hagoel, which we say before going to sleep, and spoke about how Hashem watches over us and keeps us safe.

In the afternoon nursery, we took a break from our numbers unit and began an exciting new unit on the animal kingdom. The children enjoyed sorting and categorizing animals by big and small, wild and tame, where they live, and what they eat. We ended the week with a very special celebration as we celebrated Nechama's birthday! We wish her a very happy birthday filled with bracha and simcha. The children had such a wonderful time celebrating together, and we all enjoyed the delicious cupcakes and fun goodie bags.

Have a Great Shabbos!
