After an exciting Purim, our classrooms quickly transitioned into our Pesach learning! The children are enthusiastically beginning to learn the Mah Nishtanah in Hebrew while also exploring its meaning, bringing the Seder story to life. In Morah Rivka's class, students are strengthening early literacy and math skills through playful activities with letters A-D, numbers 1-6, and daily circle time routines.

Happy Birthday Yedida!

Open House is Sunday, March 15th

This week in Nursery...

Dear Parents,

After finishing our exciting learning about Purim, we quickly switched into our Pesach journey! The children are already so excited and eager to learn more, and they love reinforcing the knowledge they remember about this very special chag. Morah has begun teaching us the Mah Nishtanah, which has quickly become our favorite song of the year so far! The children are learning it in Hebrew and are also beginning to understand its meaning in English, which makes it even more meaningful and fun for them.

This Friday we also celebrated Yedida's birthday together in class. Thank you for the yummy donuts—we really enjoyed the party!

In Afternoon Nursery, the children have been playing hide-and-seek with ABC letters and catching letters on a net. We are also thinking about words that start with the letters we know so far: A-D.

During circle time, we are learning the days of the week and setting our weather clock each day. We are also continuing to work on our numbers 1-6.

Wishing everyone a wonderful Shabbos!
